Re: Status of Non-Compliance Issues, Cream Time Quarry, S/039/009, Sanpete County, Utah

Dear Mr. Jensen:

This letter is to document the current status of the remaining non-compliance concerns at your Cream Time Quarry (S/039/009). As outlined in our July 10, 2001 letter, you were directed to complete reclamation (with the exception of seeding) of sufficient acreage to reduce the overall disturbed acreage to less than 5 acres (a minimum of 1.25 acres would need to be reclaimed). An August 1, 2001 deadline was given to complete the required reclamation work.

On August 1, 2001, Division staff inspected the Cream Time Quarry for the purpose of determining whether sufficient reclamation had been completed as required (inspection memo attached). Although the reclamation work was ongoing at that time, approximately 2 acres of a 2.5 acre area had been completed. The contractor, Mr. Coleman, indicated he expected to finish the remaining 0.5 acres by the end of the next day. This action meets the regrading requirement of the Division's July 10th letter. As discussed on site with Zack Jensen, the area will need to be seeded in late October, 2001. Please contact the Division a few days prior to your scheduled seeding so that we can schedule a site visit to observe the seeding operation. Once the seeding is completed, all of the non-compliance issues will be abated.

Thank you for your cooperation in resolving this matter. Please contact me at (801) 538-5286, or Lynn Kunzler at 538-5310, should you have any questions regarding the remaining requirements as outlined in this letter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
